

VIRGINIA FOOD, INC.

**WE'RE LOOKING FOR A
ENGINEERING SERVICES MANAGER!**

Responsibilities:

- Ensuring the most effective, efficient and economical utilization of human and material resources assigned in the whole Engineering Department;
- Leads the preventive maintenance, repairs and replacements of all electrical and electronic components and mechanical parts.
- Assuring Engineering Services Department personnel's presence in production to examine needs that may facilitate the operations, sanitation, food safety and personnel safety and to execute/implement the improvements required; these improvements, if evolved into construction and fabrication, must be according to Pre-Requisite Machine Design.

Qualifications:

- Must be a Professional Electrical Engineer (PEE);
- With at least 5 year experience as Engineering Manager and in Genset operations in a manufacturing firm (preferably in a Food Processing Industry)
- With thorough knowledge in PLC, HMI and Programming
- Skilled in Design using CAD and 3D Format
- Familiar in Electrical, Electronic and Mechanical Standard
- Must be highly dependable & proactive.
